Sir:

INFORMATION DISCLOSURE STATEMENT

In accordance with the duty of candor and good faith imposed by 37 C.F.R. § 1.56 and means of complying therewith according to 37 C.F.R. §§ 1.97 and 1.98, Applicant herewith brings to the attention of the Office the information set out in the concurrently electronically filed PTO Fillable Form PTO/SB/08a (08-03). This application is a U.S. National Phase of a Chinese-initiated PCT filing. The English language International Search Report ("ISR")

and the references cited therein (two Japanese and two Chinese language documents, one of which is also referred to in the application text), are brought to the Examiner's attention in Form PTO/SB/08a (08-03) and are being submitted concurrently herewith.

None of the non-US Patent documents are in English. Computer-generated translations were obtained from the Japanese Patent Office website for the Japanese language documents, and the translations are included. The translations are machine-based and so their accuracy is uncertain. No English language abstract or translation has been obtained for the Chinese Patent documents. The pertinence thereof is as follows. CN2536943Y and CN2672541Y documents are indicated as "A" category references ("defining the general state of the art which is not considered to be of particular relevance") in the ISR, and one of them (CN2536943Y) is cited in the application (see paragraph [0006] of the English translation of the application submitted with the National Phase filing). If the Examiner desires better translations of the Japanese documents or translations of either of the foregoing Chinese patent documents, please let undersigned counsel know and efforts will be made to obtain same.

The information listed on the concurrently electronically filed PTO Fillable Form PTO/SB/08a (08-03) is called to the attention of the United States Patent and Trademark Office in connection with the above-identified patent application. This Information Disclosure Statement and Form PTO/SB/08a (08-

03) are being e-filed together via EFS-WEB, along with the copies mentioned hereinabove.

No admission is made that the cited references are prior art and/or material to patentability. The Examiner is urged to consider the references cited in the concurrently filed Form PTO/SB/08a (08-03), and to make an independent decision with respect to the materiality thereof.

The Examiner is urged to consider all of the cited documents and to make an independent evaluation of the teachings and materiality of each.

No fees are believed to be due. However, if any additional fees are necessary to complete this communication, please apply them to Deposit Account No. 23-3000.

Respectfully submitted,
WOOD, HERRON & EVANS, L.L.P.
